 G/F ZR & DC Bldg., Rosal St., Lahug, Cebu City, Phils. 6000

ABOUT TAMBULI

Tambuli Seaside Living is the first solely residential resort development in Cebu. The 11-hectare property boasts of a ready 200-meter natural beachfront blessed with fine, powdery white sand. Residents can enjoy the use of the 4-hectare amenity area.

Tambuli Seaside Living takes its architectural cues from the natural environment. Among the focal points of the resort community are the huge acacia and banyan trees and the abundance of smaller yet equally captivating trees dotted throughout the entire development.

Tambuli Seaside Living can best be described as modern tropical, with wide open spaces allowing for breezy comings and goings. Nothing formal or restricted, the air of casual chic resonates from the entrance of the modern lobby to the charmingly modern wood deckings that seemingly mimic the natural surroundings.

THE DEVELOPERS

In ancient Greek mythology, the Tytans were a primeval race of powerful deities that ruled during the legendary Golden Age, descendants of the gods of Earth and Sky.

Today, as Estate Development, Tytans Properties and Development Inc. boldly steps in with its pioneering project, Tambuli Seaside Living.

Tytans Properties and Development Inc is a proudly Cebuano developer headed by its President, Mr. Gerard Tan and Chairman, Mr. Montano Ty.

Both astute businessmen, the partners found no difficulty finding good business sense when the opportunity for acquiring the 11 hectare property was presented. Undoubtedly homegrown Cebuano, Mr. Tan shares that the value that comes with owning the iconic beach side property is priceless, further stressing that the mere mention of Tambuli evokes memories among Cebuanos and local tourists who have had their share of memorable summers and holidays at the former Tambuli beach club, arguably the place to be in the 70s and 80s.

Among those with the fondest memories of Tambuli is its Chairman, Mr. Montano Ty. Mr. Ty brings to the forefront his expertise in high-end residential development, being the President of Green Peaks Development Inc., developer of the exclusive 27-storey condominium, "The Padgett Place" in Lahug, Cebu City.

With the vision of its founders of providing a serene, tranquil beach front living nestled comfortably within the lush confines of extravagant natural greenery, Tambuli Seaside Living is not just another destination...it is Home...where paradise greets you at every turn. Come home to Paradise. Come home to Tambuli Seaside Living.

Arkinamix, one of Cebu's premier architectural firms, headed by Alex Medalla, takes the oft beat track, sharing that the natural foliage and the backdrop of sand, sea and sky take center stage for this design.

Medalla brings with him over 10 years of experience working with top architects in Hong Kong, where residential space is limited, thus, sharpening his skills in efficient space planning. To enhance the landscape design, Tambuli enlists the collaboration of Arkinamix and EA Aurelio Landscape.

FREQUENTLY ASKED QUESTIONS

- Are the units fully furnished?
Only units in Towers A, B, C & D comes with free furnishings and appliances but are subject to change without prior notice.
- How much is the monthly condominium dues?
The monthly condo dues will range from P75 to P100 per sq. m.
